Correspondence of The Tribune.
PHILADELPHIA, Jan. 9, 1843-P. M. The intelligence from Harrisburg to-day indicates a storm of a very unpleasant Bathre to the Loce Foco party The cry of "Treason" kas already been raised, and from the efforts making to defeat the re election of Buchanan tomorrow by the friends of Gov. Porter, all eyes are turned towards the Capital. The election of Higgins, as Clerk of the Senate, in opposition to the Cancus candidate, at once threw the party into confusion. A grand row of words fol lowed, and thus the matter stands. There are no less than twenty-four nominations for the Senaturship.

In the House of Representatives, articles of impeachment against David R. Porter, Governor of the Common wealth of Pernsylvania, have been presented, signed by several leading Loco-Focos of this city! They charge His Excellency with "bribery," " corruption," &c. in connection with Solms and Brodhead, of Moyamensing Bank notoriety. A committee of five has been appointed to report on the same.

There is a rumor current in the city, that the nomination of Thomas L. Smith, Collector, and Joel B. Sutherland, Naval Officer, of the Port of Philadelphia, were rejected by the U. S Senate on Friday last; and that Gen. Keim, o Reading, was immediately nominated in place of the former There is considerable spirit manifested to-day in celebra.

ting the Anniversary of the Battle of New-Orleans, by our Loco Foco friends. Several military companies are out on parade, and "the party" are now dining at the Globe Hatel, in front of Independence Hall,

There were 100 deaths in the city and suburbs during the week ending on Saturday last.

The connection of Reaben M. Whitney, as proprietor and editor of the Evening Journal, ceased this day. E. W. Morgan, of the firm of Storm & Morgan, brokers, has purchased the same, and will hereafter carry on the Journal. The Court of General Sessions, Judge Doran alone presiding, commenced business in good earnest this morning. There were some twenty prisoners in the dock, most o whom were disposed of in a short time.

There was a considerable freshet in the Schuvlkill this morning, and it was feared much damage would easue to the property in that vicinity.

The business at the Board of Brokers to day was quite lisated. The following sales occurred 12 shares "chuyikili Navigation 25; 50 do Wilmington Railroad 67; \$1109 City \$\text{Bs,1302},92; \$900 Wilmin\_ton Railroad 67s, 1858, 58.

'The action was commenced in 1839, but nonsuited on account of informality, and revived in August last. It appeared, in evidence, that the first flogging com-plained of was on account of the girl seizing hold of Mrs. Bennett (who had slightly corrected her) and throwing her bennett (who had stightly differed der) and throwing her down on the floer. Very little could be gathered of the se-cond assault but from the girl (now a young woman grown) herself. Severalladies tastified in the case. I Spencer announces to gentlemen that his arrangements are now completed for supplying according to previous intimation, a rine Puz Har at a price (\$3 25) which shall render it emphatically the charpest as well as lowest priced Gentlemen's Fur Hat ever on sale in this

city. It is prepared in the same style which characterizes our finest article, and like that article is offered at a price at which it cannot be continued without an unusually rapid sale. The undersigned with all confidence affirms it to be or the gentleman and economist the most desirable Fur lat yet offered. (.20tf) SPENCER, 245 Broadway.

Orlando Fish, Fashionable Hatter, 137 Broad ty, would inform the gentlemen of New-York that his Fa I and Winter style of Hats is now ready for their inspection and critical indrement. Claiming the distinction of having been the first to project and abide by a strictly AMF BICAN style of Hats, instead of servilely copying the Fash ions of Europe, which are often unsuited to our citmate and manners, he rejoices to perseive that others have seen it to follow his lead, and that now the following of Europ can Fashions in Hats is almost entirely abandoned by the ler sling manufacturers.

He c ffers a Winter style of Gentlemen's Nutria Hats at \$3 50, and warrants them tequal in material, finish, fashion and di trability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are call and examine his new stock of winter mass and judge of their quality. He is confident that, whether the chapter of the best Ha t is desired, the inquirer will here as satisfied. Try him.

DISASTERS. Barque Malay, of Salem, (before reported lost in Mozam-bique Channel.) went ashore on the Kuropa Rocks on the night of the 27th of July, bilged and sunk. The officers crew took is the boats, and arrived at Mozambique Island August I, and thence proceeded to Zanzibar, where the off-cers were to take passage in the whale ship Messenger, of New-Bedford; a part of the crew came home in the Cher-

okee, arrived at Salem on the 5th of December. The Ma-lay had about 95 bbls of oil on board at the time of her going ashore.

Schr Cherokee, Usher, (before reported run into on the Soth ult by schr Henry, of Newbury,) arrived at Bristol, R 1, on the 5th. Capt Usher states that he bailed the schooner several times, but received no answer, the crew ar parently being below. At daylight the Henry run down to the Cherokee and bailed, but all that Capt U could understand was, that she was bound to Baltimore, but offered no assistance. On the night of the 3d inst she was struck by a heavy squall from NW, and thrown on her beam ends, in which situation she remained ten mi utes, when she righted, with 2½ feet

The schooner which run into the Cherokee was the Ellen of Newburyport, arrived at Baltimore on the 4th. She had her jib-boom, jib stay and flying-jib carried away, sprung bowsprit, knocked off cutwater, and was otherwise slightly injured. Capt Usher on his outward passage, Oct 18, lat 32 30, lon 74 25, saw a number of barre's affoat; picked up a barrel of greening apples, and at the same time saw large quantities of onlows, both buncked and loose; the apples appeared to have been stored in a vessel's hold with ourous and had probably been in the water about ten days. Capt U is of opinion that they were part of the cargo of the schi Tiene, Hart, from Newport, Oct 4, for Nassan and Mobile, reported sometime since as a missing vessel.

TEDICAL REFORM, or the ELEC-TRO-MAGNETIC THEORY OF MEDICINE. It is utterly impossible to practice medicine with any certainty, without a perfect knowledge of all the affinities of snatter. It is the latent electric properties of matter that give rise to all change, and all action; and medicines must therefore, be pre, ared with reference to these properties solely. Diseases are also to be investigated by the same principle. All else is mere change meaning the contraction. principle. All ese is mere chance, guess work, and empericism. D. L. MALLISON, M. D., 334 Greenwich st., N.Y. Electric medicines carefully prepared for all diseases. TESTIMONY -I know a number of persons that Dr. Mailison has prescribed for, and administered his Electric Mo-dicines to with success. I have called on many others, who I knew had taken these medicines in different sec-tions of the country, and for various complaints, and have conversed with them personally; and out of more than two hundred cases. I have not found one instance where the patient did not willingly acknowledge either an entire cure or ding to the directions.
